

I hope you will allow TWO protests from the same person -- the first one I sent used the message given by freepress.net, but I would like to use my own words to express my great anger at a facility which uses the public air waves to broadcast a personal point of view.

This is the beginning of a controlled press; of a fascistic government, and a controlled population.

I protest and I request to you fine Sinclair and take away their license to broadcast.
